

The Modern IT Visibility Gap

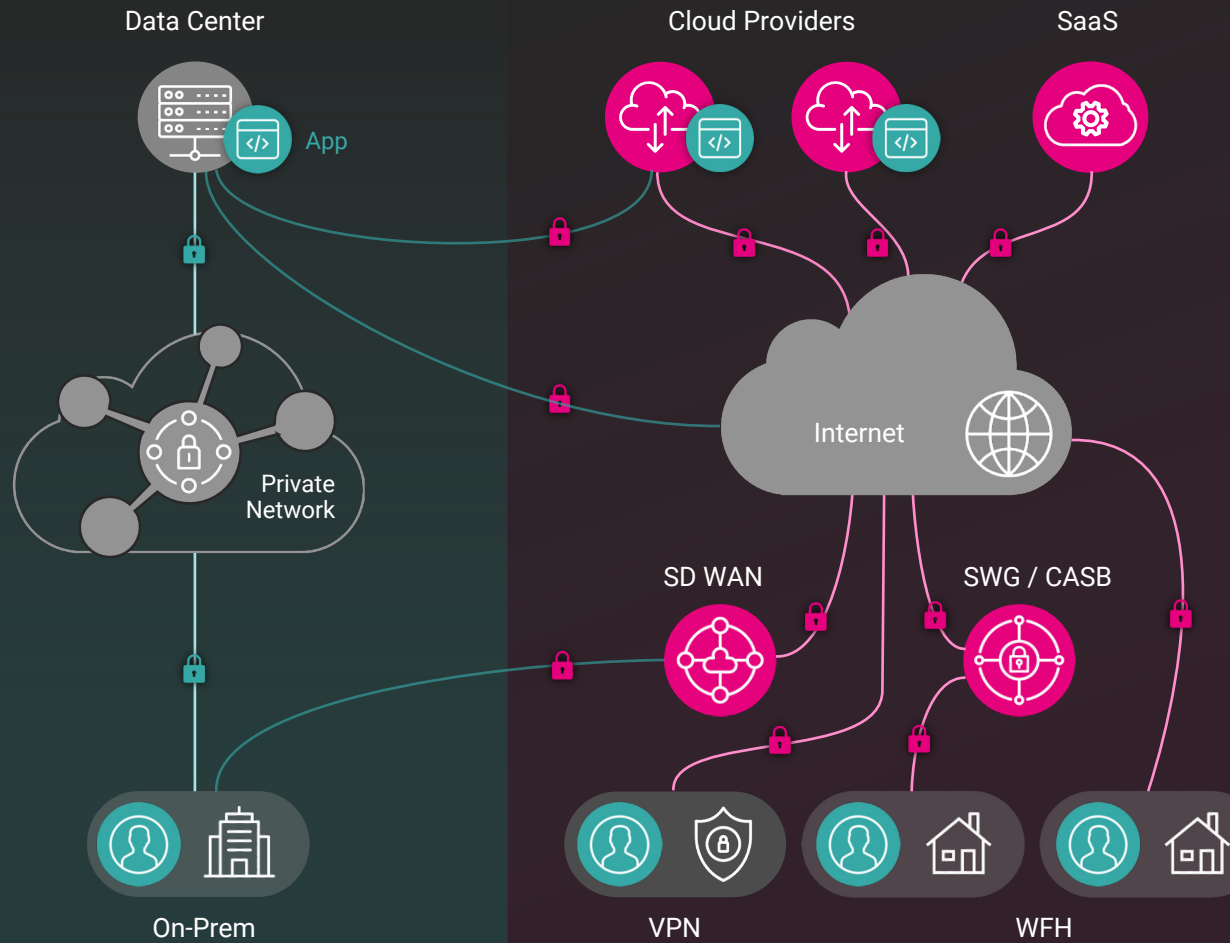

Traditional monitoring approaches weren't designed for cloud-powered applications.

Legacy

Modern

New Reality

Apps	Distributed, Dynamic, SPA, Cloud-native
Infra	Hybrid, Multi-cloud, 3 rd -party
Network	End-to-end encryption
	Dynamic overlay and underlays
	Geo-based DNS resolution / redirection
	Virtualized / cloud routers
Users	BYOD, Home Wi-Fi, Chromebooks

Blind Spots
